BAY DELTA CONSERVATION PLAN

ENVIRONMENTAL IMPACT REPORT (EIR)

AND ENVIRONMENTAL IMPACT STATEMENT (EIS) PROCESS

Biological Resources

WOULD THE PROJECT...

- Have an effect on aquatic or terrestrial species listed as endangered, threatened, or rare under the federal or California Endangered Species acts?
- Have an effect on any other aquatic or terrestrial special-status species identified in federal state, local or regional plans, policies, or regulations, or on any species that would qualify for such identification?
- Have an effect on wetlands?
- Have an effect on any riparian habitat or other sensitive natural communities?
- Have an effect on the movement of any migratory fish or wildlife species or impede the use of native fish or wildlife nursery sites?
- Have an effect on natural upland plant communities and wildlife forage quantity and quality?
- Cause an increase in numbers and distribution of invasive species?
- Conflict with the provisions of an adopted Natural Community Conservation Plan, Habitat Conservation Plan or other approved conservation plans?
